

WAXNESS®

INSTRUCTIONS FOR USE

PRODUCT NAME: Waxness Charcoal Premium Luxury Hard Wax

INTENDED USE:

- Premium creamy hard wax beads with hypoallergenic synthetic resin, ideal for sensitive and facial areas.
- Formulated for Brazilian waxing and other delicate zones, but suitable for all body areas (face, underarms, bikini, legs, arms, back).
- Contains purifying charcoal to help remove impurities and leave the skin clean and well groomed.
- Highly flexible yet strong wax, used without strips at low temperature.

DIRECTIONS FOR USE - HEATING:

- Pour the required amount of hard wax beads into a professional wax heater.
- Melt the wax over low heat; start melting at around 38 °C (100.4 °F) and do not exceed 42 °C (107.6 °F).
- Stir until a homogeneous, thick honey-like consistency is obtained.
- This wax is not microwaveable; use only a suitable professional wax warmer.
- Always test the wax temperature on a small patch of skin before each use.

DIRECTIONS FOR USE - APPLICATION:

- Ensure the skin is clean and completely dry; remove any traces of oils, creams, or perspiration.
- If necessary, lightly prepare the skin with a small amount of powder on very moist or sweaty areas.
- Using a spatula, pick up a small to medium amount of wax and apply an even layer in the direction of hair growth, forming a strip not wider than about 3–4 cm (1–1.5 inch).
- Create a slightly thicker edge or “tab” at the end of the strip to facilitate removal.
- Allow the wax to set for a few seconds until it is no longer sticky to the touch but still flexible.
- Holding the skin taut, lift the edge and remove the strip quickly in the opposite direction of hair growth, keeping it close and parallel to the skin.
- You may re-apply wax on the same area up to 2 times if the skin condition allows.
- When the treatment is completed, apply an antiseptic soothing oil or lotion as needed.

STORAGE:

- Store in a cool, dry place, away from direct sunlight, heat sources, and humidity.
- Keep the bag or container tightly closed when not in use.

SAFETY PRECAUTIONS

- For professional use only; recommended for licensed beauticians.
- For external use only. Do not ingest.
- Incorrect temperature may cause burns or other injuries; always check before application.
- Do not apply on mucous tissues, varicose veins, moles, warts, sunburned, broken, or severely irritated skin, or on areas with active skin problems.

WAXNESS®

- Do not use on clients using Tretinoin/Retinoid creams, after chemical peels, or plastic surgery without medical approval.
- Keep the plastic bag away from babies and children; risk of suffocation. This bag is not a toy.
- If strong redness, burning, or irritation occurs and persists, discontinue use and consult a healthcare professional.

INGREDIENTS: Hydrogenated Polycyclopentadiene, Ethylene / VA Copolymer, Paraffin Wax, Microcrystalline Wax (Cera Microcristalina), Titanium Dioxide (C.I. 77891), Zinc Oxide (C.I.77947), Black 2 (C.I. 77266 Carbon Black).
