

# WAXNESS®

## INSTRUCTIONS FOR USE

**PRODUCT NAME: Waxness Polymer Blend Luxury Italian Velvet Soft Wax Tin**

### INTENDED USE:

- Professional soft wax with polymer advanced formula for efficient hair removal on larger body areas.
- Suitable for all hair types and well visible on the skin.
- Leaves no stickiness on the skin; no additional lotion treatment after waxing is typically needed.

### DIRECTIONS FOR USE - HEATING AND APPLICATION:

- Open the container of wax and place it in a professional wax heater over low heat (max. 42 °C / 107.6 °F).
- Allow the wax to melt completely to a honey-like consistency, then stir to obtain an even texture. Test the temperature on a small area before full application.
- Clean and dry thoroughly the area to be treated. If necessary, prepare the skin with a light layer of powder or hydrophilic oil.
- Using a spatula, apply a very thin and even layer of wax in the direction of hair growth, approximately the size of the depilating strip.
- Place a depilating strip over the waxed area and press/rub firmly in the direction of hair growth to ensure adherence.
- While holding the skin taut, remove the strip quickly in the opposite direction of hair growth, keeping it close and parallel to the skin.
- You can apply wax and strip on the same area a maximum of 2 times if the skin condition allows.
- At the end of the procedure, apply an antiseptic soothing oil or lotion if needed, observing the skin's sensitivity.

### STORAGE:

- Store in a cool, dry place, away from direct sunlight and heat sources.
- Keep the container tightly closed when not in use to preserve product quality.

### SAFETY PRECAUTIONS

- For professional use only; licensed beautician use is recommended.
- For external use only. Do not ingest.
- Keep out of reach of children.
- Before first use, perform a patch test on a small area and wait 24 hours; if no irritation occurs, proceed with treatment.
- Do not apply on varicose veins, moles, warts, damaged, sunburned, or highly irritated skin.
- Avoid contact with eyes; in case of contact, rinse immediately and thoroughly with water.
- If strong redness, burning, or irritation persists, discontinue use and consult a healthcare professional.
- Carefully follow all warnings and instructions on the product label; failure to do so may result in skin irritation or other injuries.
