

WAXNESS®

MATERIAL SAFETY DATA SHEET

1. IDENTIFICATION

Product name: Waxness Rose Film Hard Wax Beads

Product type: Depilatory cosmetic - film hard wax beads for hair removal

Recommended use: Professional hair removal wax, applied in a thin layer and removed as a film without strips

Uses advised against: Any use other than cosmetic hair removal according to instructions

MANUFACTURER:

1BEAUTY US LLC

77720 Springfield Ln, Ste A

Palm Desert, CA 92211, USA

Tel: (760) 636-6923

E-Mail: sales@waxness.com

RESPONSIBLE PERSON FOR THE EU

Waxness Deutschland

Eitnerweg 16

Hamburg, DE, 22339

2. HAZARD(S) IDENTIFICATION

Classification (GHS): Not classified as hazardous mixture under normal conditions of use as a cosmetic wax.

Main hazards:

Hot melted wax can cause thermal burns on contact with skin or eyes.

May cause skin irritation or allergic reaction in individuals sensitive to rosin (colophonium) and fragrance components.

GHS label elements (if used):

Signal word: Warning (for hot material and sensitization potential)

Hazard statements (example):

H315: Causes skin irritation (for sensitive users).

H317: May cause an allergic skin reaction (rosin, fragrance).

WAXNESS®

Precautionary statements (example):

P264: Wash hands thoroughly after handling.

P280: Wear protective gloves when handling hot wax.

P333+P313: If skin irritation or rash occurs: Get medical advice/attention.

3. COMPOSITION / INFORMATION ON INGREDIENTS

Mixture of waxes and resins.

Typical INCI: Colophonium (Rosin), Glyceryl Rosinate, Ethylene/Va Copolymer, Paraffin, Synthetic Beeswax, Hydrogenated Coconut Oil, Parfum (Fragrance), CI 15850 (Red 7 Lake), Synthetic Wax, Citronellol, Geraniol.

4. FIRST-AID MEASURES

Inhalation: Move person to fresh air if discomfort from fumes of overheated wax occurs. Seek medical attention if symptoms persist.

Skin contact (not melted): Wash with soap and water. Stop use if irritation or rash develops.

Skin contact (melted / hot wax): Immediately cool affected area with plenty of cool (not ice) water. Do not forcibly remove solidified wax from burned skin. Do not apply ointments or creams on severe burns. Seek medical attention.

Eye contact: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do. Continue rinsing. Seek medical advice if irritation persists.

Ingestion: Rinse mouth. Do not induce vomiting. Seek medical advice if a large amount is swallowed or if discomfort occurs.

5. FIRE-FIGHTING MEASURES

Suitable extinguishing media: Foam, dry chemical, CO₂, water spray.

Unsuitable media: High-pressure water jet may spread molten wax.

Specific hazards: Combustion may produce smoke and irritating fumes. Molten material can cause burns.

Protective equipment: Firefighters should wear self-contained breathing apparatus and protective clothing.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions: Avoid contact with hot molten wax. Use protective gloves and footwear.

Environmental precautions: Prevent large quantities of molten material from entering drains, surface or ground water.

Methods for cleaning up: Allow molten wax to cool and solidify, then scrape up mechanically and dispose of in accordance with local regulations. Clean residue with suitable detergent.

WAXNESS®

7. HANDLING AND STORAGE

Safe handling:

Use only in professional wax warmers with temperature control.

Do not overheat; follow recommended maximum temperature (approx. 42 °C / 107.6 °F).

Avoid breathing fumes from overheated wax; ensure adequate ventilation.

Avoid contact with eyes and hot material contact with skin.

Storage:

Store in a cool, dry, well-ventilated area away from direct sunlight and heat sources.

Keep bag or container tightly closed.

Keep out of reach of children.

8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Occupational exposure limits: No specific limits established for finished cosmetic wax mixture; treat as inert solid at room temperature.

Technical measures: Local exhaust or general ventilation recommended when heating large quantities to minimize fumes.

Personal protective equipment (professional use):

Eye protection: Safety glasses or face shield when handling hot wax.

Skin protection: Heat-resistant gloves when handling containers with melted wax; standard salon clothing.

Respiratory protection: Normally not required; if ventilation is insufficient and fumes are bothersome, use suitable mask.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance: Solid beads, pink/rose color.

Odor: Characteristic, perfumed.

pH: Not applicable (non-aqueous solid).

Melting point / range: Approx. 42 °C (typical for depilatory waxes).

Flash point: Not expected to be flammable at normal use temperatures.

Solubility in water: Insoluble.

10. STABILITY AND REACTIVITY

Stability: Stable under normal conditions of storage and use.

Conditions to avoid: Excessive heat, direct flame, prolonged overheating.

Incompatible materials: Strong oxidizing agents.

WAXNESS®

Hazardous decomposition products: In case of fire or extreme overheating, may release CO, CO₂ and irritating vapors.

11. TOXICOLOGICAL INFORMATION

Likely routes of exposure: Skin contact (during cosmetic use), rare eye contact, inhalation of fumes from overheated wax.

Skin: Generally well tolerated when used as directed; hot wax can cause burns; rosin and fragrance components may cause irritation or allergic contact dermatitis in sensitized persons.

Eyes: Contact with hot wax can cause serious burns; solid or liquid splashes may cause irritation.

Ingestion: Low acute toxicity expected; ingestion of large amounts may cause gastrointestinal discomfort.

Sensitization: Rosin (colophonium) and fragrance allergens (citronellol, geraniol) may cause skin sensitization.

12. ECOLOGICAL INFORMATION (NON-MANDATORY)

Ecotoxicity: No specific data available; product is not expected to be acutely hazardous to aquatic life in typical use quantities.

Persistence / degradability: Mixture of waxes and resins; slow biodegradation expected.

Bioaccumulation: No specific data.

Other adverse effects: Avoid uncontrolled release into the environment in large quantities.

13. DISPOSAL CONSIDERATIONS (NON-MANDATORY)

Product: Dispose of solid waste in accordance with local regulations as non-hazardous cosmetic waste.

Packaging: Empty, clean packaging can be recycled or disposed of according to local regulations.

Do not pour large quantities of molten wax into drains.

14. TRANSPORT INFORMATION (NON-MANDATORY)

UN number: Not regulated as dangerous goods for transport (road, sea, air) according to typical cosmetic wax MSDS; confirm with official sheet.

Proper shipping name: Not regulated – cosmetic wax, solid.

Transport hazard class: Not classified.

Packing group: Not applicable.

15. REGULATORY INFORMATION

This product is intended as a cosmetic depilatory wax and should comply with applicable cosmetic regulations in the country of sale.

WAXNESS®

Rosin and fragrance allergens subject to labeling requirements according to cosmetic regulations when above threshold levels.

No additional specific regulatory restrictions known for normal cosmetic use.

16. OTHER INFORMATION

Other information: This safety data sheet is prepared in accordance with EC Directive 2001/58/EC.

Legal disclaimer: The above information is believed to be correct but does not purport to be all inclusive and shall be used only as a guide. This company shall not be held liable for any damage resulting from handling or from contact with the above product.

This is not a specification and customers should satisfy themselves as to the completeness of information for their own particular use.

Method of use: Follow the instructions written in the packaging or in the enclosed leaflet. Avoid all methods of use which are not indicated in the instruction leaflet

Norms of behavior: The beautician must inform the consumer about the message contained in the precautional and warnings, both for the contra-indications and for the allergic reactions.

Revision / Preparation date: 31-Mar-26
